

HELPFUL INFORMATION FOR
YOUR STAY AT CLOUD9.

Welcome to
Cloud9

Before you start

Location

It can be tricky to find us with your navigation system, so here's your exact location:

<https://goo.gl/maps/sh1bszFUgqLBYkSH8>

Important!

Read the directions before making your way to Cabbio. Trust us, it's very important that you follow the way to **Bruzella first** before you put our actual address in the navigation system.

Shops

Please be aware that shops for groceries in the vicinity are **a bit rare**. You might want to consider that before driving up the valley. But in case you forgot or it was too late no panic, we got you covered with some basics for the first aperitif and breakfast.

WIFI

We can only get Internet over Satellite here so there is a small router in the apartment that works fine, but it has a **limited data** volume. We would therefore advise you to switch to your phone's hotspot for higher amounts of data, otherwise, the router might run out of juice. In case that happens, maybe some time offline can also be enjoyable.

Info for dog owners

Please bring your own **sleeping mat** for your furry friend.

FIRST THINGS FIRST

This is important! The navigation system thinks it's smart and wants to lead you over a shorter, but narrower way to us and believe us, you don't want that. So f* the system! And please please search for 6837, Bruzella in the navigation system and follow that street first before moving on to your final destination.

A little bit down the street on the left, practically impossible to miss, a big gray house.

And underneath: tada!
Your personal parking space awaits.

A minimalist bedroom with a bed, a chair, and a lamp. The room features a white wall, a wooden floor, and a bed with a textured blanket. A modern, white, lattice-style chair is positioned next to the bed. A small, white, conical lamp is mounted on the wall above the bed. The overall aesthetic is clean and modern.
